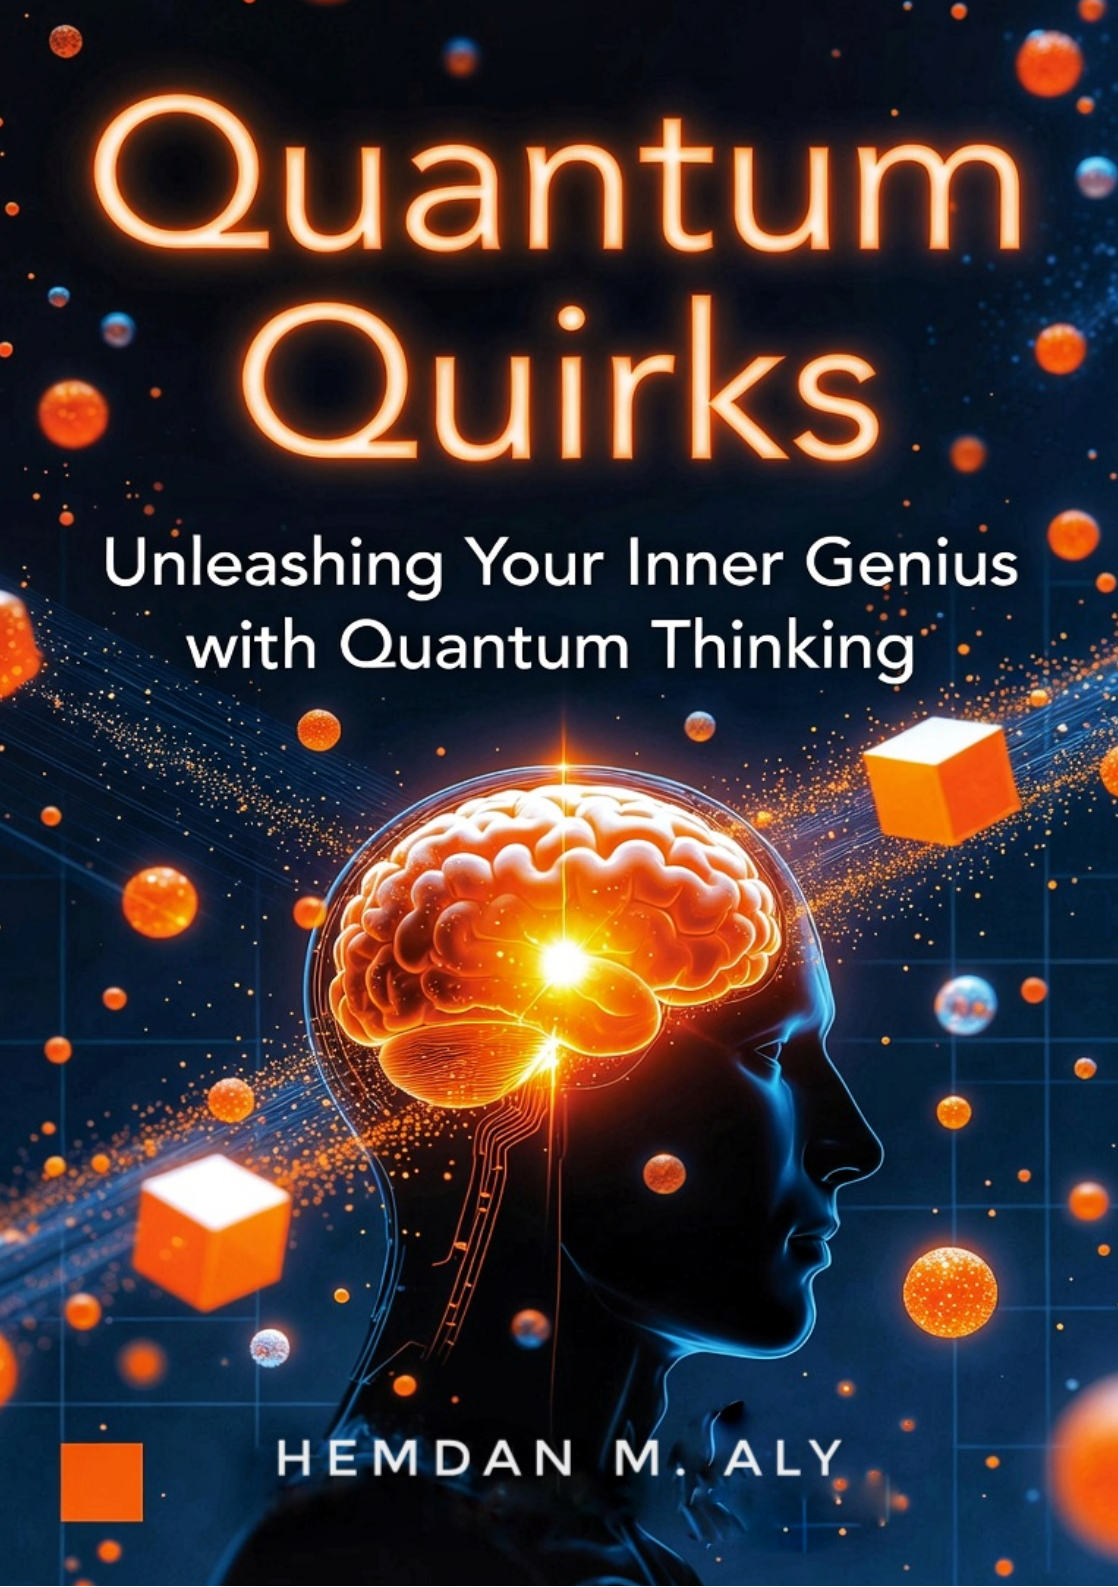
Quantum Quirks

Unleashing Your Inner Genius with Quantum Thinking



HEMDAN M. ALY

QUANTUM QUIRKS

UNLEASHING YOUR INNER GENIUS WITH QUANTUM THINKING

BY

Hemdan M Aly

Thought Leader and QSComm Advisor

Hemdan M. Aly

To my mother, who always believed in me. To my father, who taught me to never give up. To my parents, who showed me that anything is possible. Thank you for your love and support. I dedicate this book to you.

ACKNOWLEDGMENTS

This book is a reflection of all those who participated, knowingly and unknowingly, in making a dream into a reality.
Thanks to the Hemdan M. Aly for the Great Contribution, Follow–Up, and Care to Bring Quantum Quirks: Unleashing Your Inner Genius with Quantum Thinking book into existence.
Thanks to all those Motivational speakers who have influenced my beliefs.
Earl Nightingale; Napoleon Hill; Les Brown; Jim Rohn; Tony Robbins for energizing me to meet the challenges of the world around me.

PREFACE

Your Power is beneath your Inner Self. Try Hard to Discover it, & you will be shocked by the good results you will Gain.

Quantum Quirks: Unleashing Your Inner Genius with Quantum Thinking book will help you in Your Trip to deal with your Life, happiness, problems, fears, and health.

Hemdan M Aly

Introduction

We probably all know that, we are made of Atoms, which are the Basic Building Blocks of all things around us. We also all know that, those Atoms consist of Protons, and Neutrons in the Nucleus, and Electrons in the rest of the Atom. However, Protons, Electrons, and Neutrons are no longer the Smallest Building Blocks in the Atom as we used, as it was found that these Three Particles consist of other Particles smaller than they do. Moreover, they were called Elementary Particles, which are the particles that make up matter in the Universe, and do not consist of anything smaller than they do.

These particles spread throughout the entire Universe, and are either in an interconnected state, such as their Interconnection within the Protons and Neutrons in the Nucleus of an Atom, or a Single Free Form, such as the Electron.

Scientists have divided these bodies into two Main Parts:

1– Fermions: They are the components of (Protons, Neutrons, and Electrons). Moreover, they are divided into Quarks and Leptons.

2– Bosons also called "Force Carriers" are the Four Forces (Gravity, Electromagnetism, the Strong Nuclear Force, and the Weak Nuclear Force) that bind and affect Fermions. These Forces propagate in the Vacuum, in the Form of Fields.

According to Superstrings Theory, everything in this Universe of Matter, Energy, or Charges are Strings, but they vibrate in different ways, such as the Musical tones produced by the Cello, for example, where each frequency in the String of the Instrument gives a Specific Musical Tone.

For example, the Force that arises between the Mind and the Heart is an exchange of a Particle (a messenger) between them, and the more it moves between the two parties at a faster rate, the closer the two bodies are to each other, or in other words – the greater the force between them.

That is, Mutual Interaction is what creates what we feel is the power of the level of inner Happiness, and these theories were confirmed by the discovery of the Superstrings Theory, which developed into what is known as the Theory of everything.

As it was confirmed, all Biological Organisms must obey the laws of Physics, both Classical and Quantum. In contrast to classical physics, Quantum Mechanics is fundamentally in deterministic. The importance lies in the scrutiny, As Life is made of Chemical Reactions.

We all acquire Happiness through Interactions between Thinking and Feelings within the framework of the Higgs Field, and the Stronger the Intensity of Interaction and Harmony, the higher the Level of Happiness

Besides that, Happiness is the Realization of what is appropriate. Therefore, when a person finds what suits him, he has won the best condition to feel Happiness.

We do not look for Happiness like a Coin that fell from us to the Ground and disappeared among the Furniture.

ABOUT THE AUTHOR

Hemdan M. Aly is an Egyptian author who seeks to create an intellectual map that blends the Technical Mind, Creative Spirit, and Human Ambition in his writings. He explores practical formulas for envisioning the Future and empowering individuals in a rapidly changing World. He is a member of the Information Technology Professionals Association (ITPA) and the Institute of Digital Transformation (IDT). He has authored numerous articles and publications in both English and Arabic.
